Cara Update Firmware Nokia N78

The N78 has been bumped up to v20 149 051 1 Much like the update to the E71, this is a pretty major update featuring several improvements to system stability, updated Nokia Maps to version 2, the addition of an Application Update feature to the Applications folder, and tweaks to device performance with applications and the navi-wheel.. New Firmware version 31 0 016 for Nokia N82 adds UDP (User Data Preservation), an update to Nokia Maps, which in turn is more stable after the update.. Firmware updates for Nokia N82, N78 Firmware updates for NSeries smartphones - N78 and N82 have recently been released by Nokia.
